

Scout Record Card

Every once in a while I need to produce a record card for a Scout's Challenge badge progress.

Many moons ago, someone created a clever spreadsheet to take OSM data and do just that. I lost that years ago, but today I created a new one.

If this proves useful to you, please let me know. I have tested it with both of our troops and it appears to work well. Any problems, I will "do my best" to help.
